Eagerly Wishing The Fascinating Morrows
With Winged Friend of a Raven Overhead

By Gene Archuleta
For The HERALD

My experience with a roa-

ven (winged bird) began about 12 years ago in 2002.
A black raven flew to me during my morning walk.
My walk starts on Marie Street and takes a right to Kop-

pa Street and local toward Union and on to Dona Ceme-
dary. Past the ceme-
yary, I often feel that the town’s water tanks.
From the town, I walk south to Marie Street, a street that comes into Kopapa just before the Interstate-25 underpass, which is close to the County Courthouse.

Author Gene Archuleta in Gila National Forest
Course.
He typically sits atop a roof, possibly facing the north a lot of times he comes back to me. He usually sits near me.
